Promoting Amateur Radio in Chesterfield - Affiliated to The R.S.G.B.

Chesterfield & District Scouts Amateur Radio Club:- M0RSC

Press Release

Chesterfield & District Scouts Amateur Radio Club has recently received a National Lottery Grant from the "Awards for All Fund" of £ 9959.00.

The grant will be used to build upon its aims and objectives in developing amateur radio within Scouting and Guiding in the Chesterfield and surrounding areas.

The funding is to be used to purchase new radio equipment, computers, a portable generator and a mini marquee.

We intend to support scouting members in gaining their amateur radio licence, through training and development of their skills.

We also intend to develop Amateur Radio Direction Finding (ARDF) by purchasing equipment which will allow us to demonstrate it with in the Scouting and Guiding community in Derbyshire.

The Scout Radio Club usually meets once a month at varying locations in the Chesterfield area.
